

Regarding the submission of your recording/video to Valdres summer symphony

The quality of the tape itself is not as important as the quality of the performance. This should reflect your level in the best possible way. It is therefore important that you attach a recording that you are very pleased with. We prefer a video with picture as well as sound.

The recording does not have to be from a specific concert or a show of this kind. It is perfectly fine with a clip from your own livingroom or similar. Even so, we do recommend that your teacher is present to ensure that the performance is as good as possible.

For strings: the recording may be accompanied by piano but this is not a requirement.

For winds: the recording **MUST** be with a pianist.

You can add the recording/video either by sending us a link to youtube, sharing a dropbox file or other online video services. Remember to inform us about the password if this is required.
